Provisional acceptance of the Final Edition of the IWF-MASTERS Rule Book effective September 12, 1993, Newnan, GA.**

MISSION STATEMENT

The International Weightlifting Federation Masters Committee (IWF-MASTERS) is responsible for providing and maintaining a functioning system to administer and facilitate the sport of Masters weightlifting for all accredited members of their respective National Associations throughout the world. As a committee of the International Weightlifting Federation, the IWF-MASTERS will provide policy direction, not only within their own committee, but will interface with and contribute to the growth of the Masters movement within the IWF organization.

It is our purpose to strive to evolve toward higher levels of mutual respect among our competitors and member nations, including appropriate qualifying standards for competition; to compete with honor and dignity and to produce and maintain a drug-free environment. We also commit ourselves to the continued upgrading of all levels of involvement including lifting performance, officiating, coaching, administration, and public relations.

5.8 Classification of Athletes and Teams

- 5.8.1 Team points shall be from the **total only**. No points for the best snatch or clean and jerk. Competitors cannot continue on the Clean and Jerk after 3 failures on the snatch.
- 5.8.2 When two or more competitors obtain the same results at a competition where they registered at the same bodyweight, the competitor whose age is greatest is classified before the other one(s).
- 5.8.3 In the case of tie in the classification of teams, where two or more teams have identical numbers of placings in first, second, etc., the team having the highest total number of points using the men's or women's formula will be classified first. That is, the total number of Sinclair-Malone-Meltzer points accumulated by all members of the team will determine the final placing.

6.1 The Jury

- 6.1.8 The jury, in unanimity, has the power to reverse a lift when the referees' decision has been unanimously agreed by the jury, to be technically incorrect. In IWF Masters World Championships and World Masters Games, the jury may reverse a decision of the referees if there is a serious error in the application of the IWF technical rules and there are five members on the jury. In the event there are less than five members of the jury, the jury is not authorized to reverse the decision of the referees. (The "Masters 5 Jury Member Rule".)

At Continental Masters Championships and World Masters Championships, for women, their **first** attempt snatch plus the **first** attempt clean and jerk must total no less than a total that is 10 kilos below the Qualifying Total for that age and bodyweight category.

The lowest possible opening (first) attempts total for men is 15 kilos below their Qualifying Total.

The lowest possible opening (first) attempts total for women is 10 kilos below their Qualifying Total.

(The "Minimum Starting Attempts Total Rule" or the "15/10 Kilo Rule".)

5.2 Drawing of the Lots

5.2.1 At the Technical Meeting before the start of IWF Masters Continental and IWF Masters World Championships, each National Federation confirms the final entry list of their athletes including name of the athlete, age group, and bodyweight category. After this information is verified at this Technical Meeting, the entries are considered final. There cannot be any modification of the names or bodyweight categories of the athletes, except in the case of an athlete moving up into a higher bodyweight category according to IWF Masters Rule **5.3.1**.

When, for any reason, a delegation of a National Federation does not attend this Technical Meeting, the entry forms previously submitted by that National Federation are considered the Final Verified Entries for that country. (The "Masters Bodyweight Change Rule".)

5.3 Weigh-in

5.3.1 The declaration to move up to a higher bodyweight category must be made at the Technical Conference before the start of the competition. After the Technical Conference, an athlete may move up to a higher bodyweight category by notifying the Competition Secretary prior to the start of the weigh-in for the class that they are registered for. After the start of that weigh-in, they may only move up to a higher bodyweight category if they get on the scale and weigh more than the bodyweight limit for that category. In that case, they must weigh-in again at the regular time for the weigh-in of the next higher bodyweight category.

3.3 The IWF-MASTERS will support all practical initiatives by Master Weightlifters which improve greater friendship and international cooperation.

3.4 The IWF-MASTERS will not allow distinctions between gender, race, color, religion, and politics to intrude into any of its meetings and discussions. During competitions and awards ceremonies, the IWF-Masters will not allow any distinctions or exceptions for matters of race, color, religion, or politics.

3.5 The IWF-MASTERS will recognize only one Masters Weightlifting Association per country.

b) The cost of the men's team entry must be the same as the cost of a team of 8 men.

c) A national may enter a maximum of two athletes in anyone age/bodyweight category for team points in the Small Nations competition.

3.7 Official Documents of the Competition

3.7.1 For each category or group, the weigh-in list used by the competition secretary must also contain the exact date and year of the birth of the athlete, as shown on the athlete's passport or other official document.

5.1 Entries

5.1.3 In all IWF-MASTERS competitions for which a qualifying total has been established, including IWF World Masters and Continental Masters Championships, all competitors must meet or exceed the qualifying total for the age group and bodyweight category in which they will compete. They must meet or exceed this qualifying total during the period specified by the IWF-MASTERS Technical Congress (in the case of the IWF World Masters Championships) or by the respective continental Masters federation (in case of the Continental Masters Championships). The qualifying period established for each competition must be published in the official entry form for that competition.

In the case of an athlete entering a new age group in the year of a competition for which a qualifying total pertains, the qualifying total may be achieved by the athlete when he or she is in a lower age group than the one in which he or she will compete, **provided** that the qualifying total is achieved during the specified qualifying period.

5.1.4 At Continental Masters Championships and World Masters Championships, for men, their **first** attempt snatch plus the **first** attempt clean and jerk must total no less than a total that is 15 kilos below the Qualifying Total for that age and bodyweight category.

1.3.2 There are seven (7) bodyweight categories for Women Masters:

- | | | |
|-----------|-----------|------------|
| 1 - 48 kg | 4 - 63 kg | 7 - +75 kg |
| 2 - 53 kg | 5 - 69 kg | |
| 3 - 58 kg | 6 - 75 kg | |

1.3.3 At Men's World and Continental Masters Championships, each country may enter a team of eight (8) athletes and only three (3) reserves spread over the different categories with a maximum of two (2) athletes per age/weight category. This is for **team points** only.

Example: Germany will select an 8-man team out of their entry of 75 lifters. The selection of the 8-man team is for **team points** only.

1.3.4 At Women's World and Continental Masters Championships, each country may enter a team of seven (7) women lifters and only three (3) reserves spread over the different categories with a maximum of two (2) athletes per age/weight category.

1.3.5 During any competition, an athlete cannot compete in more than one age/weight category.

1.3.6 Team selection is from the official entry list or nominations provided by the Host Committee. No lifter can be selected as a team member unless the same lifter has a minimum of two (2) other lifters for competition in the same age/weight category taken from the nomination list. No team selection can be made after the technical meeting.

1.3.7 The 1993 Sinclair-Malone-Meltzer Formula (Malone-Meltzer Age Factor and Sinclair Bodyweight Factor) will be used to compute the Best Lifter in each Age Group and Overall Best Lifter. Only first place winners are eligible for the Age Group Best Lifter award, and the Overall Best Lifter is selected from the Age Group winners with the highest Sinclair-Malone-Meltzer points.

1.3.8 Small Nations Men's Team Contest - At IWF-World Masters Championships and at World Masters Games, a separate "Small Nations Men's Team Competition" is held. This competition is limited to nations with six or fewer men entered in the IWF World Masters Championships/Games. Athletes may be selected for drug testing **more than once** during a championship. Athletes selected for drug testing **after** the day they compete **will not be tested** for stimulants - IOC Class A Drugs (including caffeine and over-the-counter decongestants).
- 15.4 Athletes are responsible for knowing whether or not substances they use are on the current IOC (International Olympic Committee) list of banned substances (including over-the-counter medicines and nutritional supplements). The current IOC list of banned substances can be obtained from the athlete's National Federation. (For example, the supplement Creatine is allowed but the supplement DHEA is on the IOC banned list; and the substance caffeine is allowed as long as the urine level is below a specific amount.)

- 9.3 All Continental Federation Records are the responsibility of the Continental Record keeper.
- 9.4 Within 60 days of the Continental Masters Championships, the records must be updated and mailed to the IWF-MASTERS General Secretary.

10 DISCIPLINARY MEASURES AND PENALTIES

- 10.1 No country shall be suspended or penalized as a result of actions by individuals of that country behaving in a manner contrary to the ideals of the IWF-MASTERS.
- 10.2 A lifter suspended by the International Weightlifting Federation or his National Federation shall not take part in any IWF-MASTERS event during the period of the lifter's suspension

- 10.3 When a lifter is suspended, the IWF-MASTERS Chairman and General Secretary/Treasurer of the IWF-MASTERS must be informed at once by that country's national masters chairman.
- 10.4 Penalties
- 10.4.1 When the imposition of a penalty proves necessary, then one of two levels must be considered: Suspension or Life Ban. 10.4.2 For disciplinary action not involving doping offenses, the IWF-MASTERS Chairman shall convene a hearing as soon as practical. A panel shall consist of four delegates, (one of who at least must be from the country of the lifter involved) plus the IWF-MASTERS Chairman. In addition, the lifter may be accompanied by a "friend" who will play an active role.
