In 1995, the International Weightlifting Federation Masters Committee adopted a new scoring method called the "Sinclair / Malone-Meltzer (S/MM) scoring system. Since that time, sixty three (63) Masters lifters have ever scored 400 or more points at World (W) , European (E), or Pan American (P) Weightlifting Championships. According to this ranking system, these sixty three (63) lifters are the top-performing Masters in the world.
